French: Native
English: Fluent
Hebrew: Advanced

EXTRA-ACTIVITIES

- Crypto and Blockchain
- Advisor for Blockchain
  Decentralized Projects

● PROFESSIONAL SUMMARY

I am a self-taught Junior Front-End Developer. I have experience developing full-stack applications (MVC architecture, API) following best practices (refactoring, code standards). I have deep foundations in JavaScript.

I am a self-teaching individual at the core, passionate, motivated and dedicated to coding.

Started as a digital marketer (Google adwords & Facebook ads) then worked as a QA in an automation testing team at Checkpoint (System automation testing framework) and took a 3 months' intensive course to study JavaScript and the MEAN/MERN stack to kick-start my new career.

● EDUCATION

2017 (3months)	: Intensive Coding Bootcamp – Elevation Academy
2007-2012	: Master Degree with honours – Business School – ISG Paris
2007	: Bachelors of Science – Physics with honours – College Yabne Paris
