Hebrew: Advanced

EXTRA-ACTIVITIES

- Crypto and Blockchain
- Advisor for Blockchain Decentralized Projects

PROFESSIONAL SUMMARY

I am a self-taught Web Developer. I have experience developing full-stack applications (MVC architecture, API) following best practices (refactoring, code standards). I have deep foundations in JavaScript.

I am a self-teaching individual at the core, passionate, motivated and dedicated to coding.

I worked as a QA in an automation testing team at Checkpoint (System automation testing framework) and took a 3 months' intensive course to study JavaScript and the MEAN/MERN stack to kick-start my career.

PROJECTS

built using React/MERN Stack	**IoP-Connect**
built using Wordpress	**BababoxTV**
built using Node, Angularjs and MongoDB	**The Home Cook**
built using JS/HTML/CSS	**My Portfolio**
